INTRODUCTION
AND
GENERAL INDEX

HILL DIRECTORY COMPANY, publishers of Southeastern Directories, present to subscribers and the general public, this, the latest edition of the Virginia Beach City Directory. (In all, the HILL DIRECTORY COMPANY and its affiliated companies publish more than 1,400 city and suburban Directories).

Confidence in the growth of Virginia Beach's industry, population and wealth, and in the advancement of its civic and social activities, will be maintained as sections of this Directory are consulted, for the Directory is a mirror truly reflecting Virginia Beach to the world.

The enviable position occupied by HILL'S Directories in the estimation of the public, has been established by rendering the best in Directory service. With an unrivaled organization, and having had the courteous and hearty cooperation of the business and professional people and residents, the publishers feel that the result of their labors will meet with the approval of every user, and that the Virginia Beach City Directory will fulfill its mission as a source of authentic information pertaining to the city.

Four Major Departments

The four major departments are arranged in the following order: —

I. THE BUYERS' GUIDE constitutes the first major department of the Directory, printed on yellow paper. In the first section of this department, grouped under appropriate headings, are included the advertisements and business cards of firms and individuals desiring to make a complete presentation of their products or services. Following this is the Classified Business Section, which embraces a list of the names and addresses of all business and professional concerns of the city, arranged in alphabetical order under appropriate headings—a catalog of all the activities of the city. The Buyers' Guide represents reference advertising at its best, and merits the attention of all buyers and sellers seeking sources of supply or markets for goods. In a busy and diversified city like Virginia Beach, the necessity of having this kind of information up-to-date and always immediately available, is obvious. The Directory is the common intermediary between buyer and seller, and plays an important role in the daily activities of the commercial, industrial and professional world.

II. THE ALPHABETICAL LIST OF NAMES of residents, business and professional concerns is the second major department, printed on white paper. This Directory aims to show the name, marital status, occupation and address of each adult resident of Virginia Beach, and the name, official personnel, nature and address of each firm and corporation in the city.

III. THE DIRECTORY OF HOUSEHOLDERS, INCLUDING STREET AND AVENUE GUIDE is the third major department, printed on green paper. In this section the numbered streets are arranged in numerical order, followed by the named streets in alphabetical order; the numbers of the residences and business concerns are arranged in numerical order under the name of each street, and the names of the householders and concerns are placed opposite the numbers. The names of the intersecting streets appear at their respective crossing points on each street. Special features of this section are the designation of owner-occupied homes, the listing of telephone numbers, new householder symbols and Zip Codes.

IV. THE NUMERICAL TELEPHONE DIRECTORY is the fourth major department, printed on blue paper.

Municipal Publicity

The Directory reflects the achievements and ambitions of the city, depicting in unbiased terms what it has to offer as a place of residence, as a business location, as a port, as a manufacturing site and as an educational center. The publishers have placed copies of this issue of the Directory in Directory Libraries, where they are readily available for free public reference, and serve as perpetual and reliable advertisements of Virginia Beach.

The Virginia Beach Out-of-Town City Directory Library

Through the courtesy of the publishers of the Virginia Beach Directory, a Directory Library is maintained in the offices of the Virginia Beach Chamber Of Commerce, for free reference by the gen-

eral public. This is one of many Directory Libraries installed in cities and towns throughout the United States and Canada through the courtesy of your publisher.

The publishers appreciatively acknowledge the recognition by those progressive business and professional people who have demonstrated their confidence in the City Directory as an advertising medium, with assurance that it will bring a commensurate return.

"Think It Over"

VIRGINIA BEACH

(Courtesy of Virginia Beach Chamber of Commerce)

Virginia Beach is a land of progress and promise. The present city was formed after the merger in 1963 of historic Princess Anne County and the small resort City of Virginia Beach. Located on Tidewater Virginia's coastal plain, the city has a total land area of 258.7 square miles, 51.3 square miles of inland waterways and 38 miles of shoreline. It is located in one of the most favorable climatic regions of the world, receiving 62°/o of possible sunshine annually. The average air temperature is 60.9 degrees; the average water temperature 55 degrees.

Virginia Beach is one of the fastest growing cities in the state. The population has more than doubled since the merger by approximately 171%. The 1970 census counted 47,960 housing units in the city. This was a 92.8% increase over the 1960 count of 24,879. The estimated population as of July 1, 1977 was 248,006.

The city is continuously providing new recreational facilities.

According to studies prepared by the University of Virginia, the City Planning Department and State Offices, the Virginia Beach population is better educated and wealthier than its neighbors in other Tidewater cities. All Beach residents 25 years and older have completed approximately 12.4 years of school; almost 63°/o are high school graduates. Virginia Beach is also one of the youngest cities, 38°/o of the population is between the ages of 21 and 44.

The fact that the citizens are so well educated is a credit to the excellent Virginia Beach school system. The 1977 budget amounted to $58,718,990. Pupil enrollment has increased from 45,175 in 1970 to 55,560 in 1977. The city has 40 elementary schools, 7 junior high schools and 6 senior high schools. There are also 18 private and parochial schools. Curriculum at the Vocational Technical High School offers students programs designed to train them to work for almost any industry. Virginia Beach has also been a pioneer in meeting the needs of students with physical or mental handicaps; seven years ago the Center for Effective Learning was established. A continuing program of adult education and vocational education is a major concern as well.

Although Virginia Beach is one of the largest and fastest growing cities in the state, it has one of the lowest tax rates. In the Tidewater area the city is last in assessed property taxes. Only 26.65°/o of the city's income of $122,598,418 was derived from general property taxes.

With a population of over 200,000, the city is as highly diversified in its incomes as it is in its character. Major employment involves agriculture, tourism and manufacturing. There is also an ever varying payroll of military and civil service personnel whose salaries run into the tens of millions. The per capita income, fifth highest in the state, is $3,098 and the median family income is $15,367. Fifty-one per cent of the total employed labor force living in Virginia Beach is working in the government sector, both in uniformed military services and governmental workers.

Agriculture is the principal source of income to many residents with farm gate values of all products sold amounting to over $40 million annually. Income from the city's agricultural industry increased approximately 112% in the last 20 years; the total industry income for 1977 was $128 million. Virginia Beach ranks first in the state in yield per acre of corn and soy beans and ranks third in the state in value of vegetables and nursery and greenhouse products sold. Local farmers produce one-fourth of the pork in Virginia and conduct the largest swine operation east of the Mississippi. Approximately 60% of the city's land area is rural.

The Virginia Beach skyline has undergone a vast transformation since the first hotels were built in the 1880's, but the beauty and popularity of the beach have grown at an even faster rate.

Virginia Beach is perhaps best known as one of the finest resort cities in the world, with excellent beaches, fishing and hunting facilities, and numerous other recreational activities. The first permanent structure built in the area was a club developed by sportsmen from Norfolk in 1880. By the 1890's the old Princess Anne Hotel was catering to the cream of east coast society. The oceanfront resort area has undergone a vast transformation since then. Many luxury motels, particularly highrise, have changed the entire skyline. The beauty and the popularity of the beach, however, have not diminished.

The ever popular beach is still the city's main attraction.

Each year the tourist industry becomes more important to the economy. Last season some 2,200,000 tourists left over $105,000,000.

The city is always improving and expanding facilities to attract tourists. There are four piers, two city owned marinas and five privately owned marinas. Fresh and saltwater fishing is available at any time. The sheltered waters of Linkhorn and Broad Bay are popular for water sports and sightseeing.

A variety of recreational activities compete with attractions to supplement the enjoyment of sun, surf and sand. The City Department of Parks and Recreation maintains 25 summer playgrounds, 105 tennis courts (63 lighted), and many picnic areas for tourists and residents. There are also nine golf courses located within the city. Approximately 10,000 acres of land are used for recreational purposes. Six campgrounds are open to visitors and residents: Seashore State Park Camping Grounds, Camp Lazy B, North Bay Shore Camping Grounds, KOA Campground, Ramada Camp Inn and Holiday Inn Travel Park.

Aside from man-made attractions, the city is graced with a natural beauty. Seashore State Park on Cape Henry has been acclaimed by botanists as a horticultural wonderland. Here an infinite variety of northern and southern horticulture fascinates nature lovers; cypress swamps draped with Spanish moss contrast the cliff-like sand dunes studded with yucca.

Back Bay at the southernmost part of the city is another natural wonder. Its colorful marshes and broad expanses of fine bass waters are on the north-south flyway. Each year, the country's largest flock of greater snow geese winters along the 45 mile shoreline of Back Bay and Currituck Sound. The Back Bay area is a sportsman's paradise. During the winter months there is a variety of hunting and fishing seasons which includes quail, ducks, geese, deer, bear, rock fish, speckled trout and tautog.

Everyone enjoys the beautiful waters of Virginia Beach.
PHOTO COURTESY OF THE BEACON

Camping is a favorite activity of visitors and residents.

Virginia Beach is also a growing industrial city. Industrial development is important in that it serves to broaden the tax base and to equalize the tax load. There are five Industrial Parks located in the city. Two of them sold their last lots in 1972. Oceana West Industrial Park is presently being developed and it is estimated that it will accommodate the city's new industry for the next fourteen years. It will eventually employ 15,000 people and bring $100 million in revenue to the city.

The city operates under a "resort economic development" concept. This means that new Industry must be compatible with tourism. New industry must strive to maintain clean air, open sky, beautiful beach, and a general climate for healthy recreational activities. The program has been practical as well as successful.

Several of the nation's largest manufacturing and retail sales companies have located in Virginia Beach. The Haynes Furniture Showroom and Warehouse is the largest in the state. The J. C. Penney Company has also constructed a warehouse and distribution center in one of the Industrial Parks. Guille Steel, Nepratex Industries, Bultaco International and Stihl Incorporated are a few of the other companies locating major production and distribution centers in-the city. Smaller companies, a local dairy and sign manufacturer, have also successfully established themselves within the industrial sector.

Approximately 24.4% of the civilian labor force is in the industrial sector of our economy. Construction is most profitable. Virginia Beach is 78th in population of the nation's 200 largest cities, yet, it ranked 14th out of the same cities in the total value of construction during 1973. In 1976 a total of 6,263 building permits were issued amounting to $170,564,483 in construction value.

Virginia Beach is gaining in its popularity as an industrial and recreational center not only because of its growth and modernization, but also because of the reduced travel time to large eastern metropolitan areas. Richmond, the state capitol, is 117 miles to the northwest; Raleigh, North Carolina is 190 miles southwest, and the greater metropolitan areas of Washington, D. C. and New York City are 226 and 350 miles to the north respectively.

The Annual Boardwalk art show attracts artists and visitors from all across the nation. Last year, sales were well over $200,000. PHOTO COURTESY OF THE BEACON

Virginia Beach is a city of the first class with a council-manager form of government. An eleven-member council is invested with legislative powers. The councilmen are elected at large. Seven seats, however, must be filled by a citizen from each of the seven boroughs. Council is empowered to levy taxes, adopt a budget, pass ordinances, issue bonds for improvements, and appoint the City Manager and the Legislative Staff Officers of the city. The council elects, from its membership, a mayor and vice-mayor who serve as moderators of council sessions and as representatives of the council at official and ceremonial functions.

Princess Anne Court House has been in use since 1824 and serves the present city as a Circuit Court.

Under this form of government the administrative and executive powers are vested in the City Manager. There are four Administrative Departments in the city, the Departments of Finance, Personnel, General Services and Planning, and there are 8 Operating Departments. These are the Departments of Community Services, Economic Development, Fire, Parks and Recreation, Police, Public Libraries and Information, Public Utilities and Social Services. The director of each of these departments is appointed by the City Manager and is directly responsible to him.

The merger of Princess Anne County and Virginia Beach marked the beginning of a new era in the history of the city. But the city's present and its future is nutured by a dignified and distinguished past. Few other places in the United States can claim a more distinctive beginning.

In mid February 1606, three small vessels sailed from an English harbor. One year later, on April 26, the Godspeed, Sara Constant and Discovery landed off the coast of what was to become the colony of Virginia. The travelers named the place Cape Henry in honor of the eldest son of their monarch. It was here that the first religious ceremony in the New World was held as the weary voyagers planted a cross in thanksgiving for a safe journey. Today, Cape Henry is a National Historical Monument; a high granite cross, silhouetted against ocean and sky, marks the landing dunes of the first permanent English colonists.

The Cape Henry Memorial Cross stands as a reminder that the site is a "Landmark of our Nation's Beginning."

The first permanent settlement in the area of today's city was made on Lynnhaven Bay in 1621. The Adam Thoroughgood house, built there in 1636, still stands as a monument to Virginia's early history and architecture. It is believed to be the oldest brick home in America.

After seventy years of settlement as part of Elizabeth City Shire and Lower Norfolk County, the area was finally recognized as a separate political entity when Princess Anne County was formed in 1691. The county was named for Anne, the daughter of James II, who later became Queen of England.

For the first 200 years after Princess Anne was settled it remained somewhat isolated for it was dependent upon bad roads, small boats and ferries for transportation. However, the county deeds, maps and vestry books, as well as the remains of old homes give evidence that this was a thriving community. The county was actively involved in the governing of the colony from the very beginning. Citizens represented the area in every branch of the government, even before Princess Anne was officially established as a separate county. Citizens from the county were on the Governor's Council, and several held judicial seats in the Capitol and in Lower Norfolk.

The city has an interesting documented history and it is rich in the folklore of early America. There are stories of pirates in the Lynnhaven Inlet and Lake Joyce vicinities, and reports of treasure buried by the infamous Blackbeard. Princess Anne is best known for its tales of Grace Sherwood, the only convicted witch in the colony of Virginia. A resident of the county, Grace was accused of bewitching cattle and crops, tormenting various citizens while in the form of a black cat, and sailing one evening in an eggshell to England. The original transcript of her trial is still on file at the office of the Clerk of Court.

The first battle of the American Revolution in Virginia took place in Princess Anne on November 16, 1775. Lord Dunmore, who had situated himself off the coast of Norfolk, declared martial law early in November. News reached Dunmore that the local militia were assembling to guard the roads over which the Royal troops had to travel for a rendezvous with him. He decided to march on Great Bridge, a gathering place for the Virginia militia. Finding no militia and learning there was a force stationed at Kemps in Princess Anne, he marched overland to the village. Only one volley of shots was fired by the British, but it was enough to scatter the untrained group of farmers and merchants. The volley, which touched off the tinder of revolt throughout Virginia, resulted in the first death of a patriot as a consequence of the revolution.

One of the most significant battles of the entire revolution and the last major naval engagement took place off the northern coast of the county. The French Admiral De Grasse defeated the British fleet off Cape Henry preventing supplies and reinforcements from reaching Cornwallis at Yorktown.

Cape Henry was used during the Revolutionary War and the War of 1812 as a viewing point for naval movements at the mouth of the Chesapeake Bay and its numerous ports. In 1791 the first lighthouse was erected on the Cape, this was also the first federally funded building authorized by the new American government. This structure served mariners entering the Capes until 1881 when a new lighthouse replaced the aging one.

The first building authorized by the first U. S. Congress was the Cape Henry Lighthouse completed in 1791. The lighthouse and its 1881 replacement have guided ships safely into the Chesapeake Bay for almost two centuries.

World War II brought increased shipping activity to the ports near Virginia Beach and several vessels were torpedoed and sunk just off-shore by German U-boats. During the war protection of the coast was vital. As a result the number of military installations grew and today there are five major facilities located within the city. They are: Oceana Naval Air Station, Camp Pendleton, Fort Story, Dam Neck Missile Base and the Naval Amphibious Base at Little Creek.

The small resort area of Virginia Beach was incorporated as a town in 1906 when it was granted a charter by the General Assembly of Virginia. In 1952, the town was granted a new charter for incorporation as a city of the second class. In 1962, the citizens of the city and the adjacent county of Princess Anne approved, by 82%, a merger of the two areas. Effective January 1, 1963, a charter was granted for the present city.

Virginia Beach has two excellent hospitals: The General Hospital of Virginia Beach (pictured above) and Bayside Hospital which opened its doors in 1975.

Virginia Beach is still making history; it is one of the most prominent cities in the South. Its leadership has been demonstrated by the progressive programs which have been developed by its government and its citizens.

The city's most publicized accomplishment has been the construction of a mountain, a most peculiar sight in this flat city. Mt. Trashmore, as it is called, is just that - a mountain of trash. The original idea for the Virginia Beach Sanitary Landfill and Refuse Disposal Demonstration Project belonged to Mr. Roland E. Dorer, a Virginia Beach resident and Administrator with the State Health Department. His proposal was to build a mountain out of garbage to be used for recreational purposes.

Mount Trashmore itself covers only eighteen acres of land. It contains 870,000 tons of solid waste, and approximately the same amount of earth. At 800 feet long, 100 feet wide and seventy feet tall, it is the biggest hill and the highest elevation in our city. Phase II of the project, to turn the site into a recreational facility, has been completed. The park offers fishing, boating, a soapbox derby track, hiking and picnic areas. Official opening of the park was held during the First Annual Neptune Festival in September 1974.

Mount Trashmore has been of interest to countries all over the world. Several U. S. cities are planning their own mountains. The United States Information Agency has taken Mt. Trashmore overseas to several Eastern European countries. The exhibit of engineering data, photos and new releases has toured Russia, Hungary, Poland, Romania and Czechoslovakia.

Expanding municipal services is a top priority in Virginia Beach and it has meant construction at the Municipal Center. A new circuit court building was completed in 1974 and ground was broken for a Public Safety Building. Now occupied, the three story structure houses police and fire headquarters, the first precinct, and a temporary holding facility with sixteen cells, and a self contained emergency operation center. The center will become headquarters during all emergency situations.

Service to the community is the key to success. One of the most recent innovations within the city's Public Libraries is the Special Services Department. Established in July 1971, its primary function is to offer library services and audio-visual aids to the visually and or physically handicapped patrons. In 1972 the Department was designated the Subregional Library for the Blind by the Library of Congress and the Virginia State Library. That same year the city applied for a grant to set up project Mainstream, a pilot community resources project to hire the handicapped to help the handicapped.

Circulation has more than doubled since the inception of Project Mainstream. Services have expanded to include cassette and talking books, reading to visually handicapped patrons, training volunteer braille transcribers, and the publication of a newsletter. There are 800 patrons who make use of this library service. Circulation of talking books, cassette books, braille and large print books, and equipment averages around 2,787 a month.

The Department of Libraries has also initiated a special division which is believed to be the only one of its kind in the state. The Municipal Reference Center was established in 1792 to provide specialized library and reference services to city officials and employees. The resources of the library, however, are available to any citizen desiring to make use of them. The Center collects, correlates, circulates among city employees, and preserves information on all phases of municipal government. It is also a depository for publications issued by the City of Virginia Beach. The city has several other programs which have been innovative and community service oriented. For example:

A Drug Outreach Center

A Less-secure Detention Home for young boys

Program of tax relief for the elderly

New emergency coronary care unit

The Pendleton Project to provide services for young people with problems

The transformation from a volunteer fire department to a paid professional force

Innovative and concerned with making Virginia Beach a responsive community the government and citizens work together.

The annual Neptune Festival is sponsored by the Chamber of Commerce, the City and other civic and service organizations. The festival is designed to unify and foster greater civic pride among Beach residents. There are two weeks of sporting, cultural, civic, industrial and agricultural events with parades, sand castle contests, concerts and a community street dance and seafood feast. The highlight of the festival is the crowning of King Neptune.

With an innovative city government and an active citizenry it is natural for Virginia Beach to attract experimental and creative designs in business endeavors. Within the next several years the largest proposed solar-heated business complex in the world will locate in the city. Metroplex will consist of four identical buildings where various solar systems can be tested and compared. It is estimated the complex will take four to five years to complete with a cost of over $3,000,000.

Virginia Beach is a modern city in every sense of the word. Its people, government and economy are alive and sensitive to the needs of each other. As a result, there is a strong feeling of compatibility and respect for every activity of life.

The Norwegian Lady, a nine-foot bronze statue given to the city by the people of Moss, Norway, commemorates the seven people who lost their lives in the shipwreck of the Norwegian bark "Dictator" off the coast of Virginia Beach.

★

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

Duckling with Black Cherry Sauce

One-half succulent Duck roasted with fresh orange and lemon slices - basted with Brandy and orange Curacao, and served up on a bed of browned rice and topped with Brandied Black Cherry Sauce. Tossed Green Salad, Loaf roll and butter.

New York Strip Steak

Choice New York Strip Steak cooked to your liking, topped with Bearnaise sauce... a 14-16 oz. thick selection. Served with baked potatoe. Loaf roll and butter, Tossed Green Salad

Steak á la Stephen

Sliced chunks of tenderloin sautéed in brandied butter with freshly sliced mushrooms. Loaf roll and butter Tossed Green Salad

For the Hearty Appetite

Introducing a unique U.S.D.A. choice Delmonico steak served broiled to your liking with the vegetable of the day and a baked potatoe. Loaf roll and butter. Tossed Green Salad

Appetizers

Shrimp Rémoulade - whole coral shrimp served with a spicy cocktail sauce. $3.00

Mushrooms stuffed with crabmeat - large fresh mushroom caps cored and seasoned. Stuffed with maryland crabmeat filling. Topped with Hollandaise sauce. $3.00

Escargot - expertly stuffed with seasoned butter and broiled to perfection. $3.50

Chicken Kiev

A Russian classic: two boneless chicken breasts, expertly stuffed with butter, garlic and tarragon, breaded and delicately deep-fried to a golden brown. Served with a fresh vegetable Loaf roll and butter, Tossed Green Salad $7.75

Brace of Quail

An epicurean delight - two young succulent Carolina quail, expertly broiled to taste, in a spicy brown mushroom sauce and served piping hot on a bed of white rice.

Loaf roll and butter.
Tossed Green salad.

$9.95

Filet Mignon

A choice center cut of tenderloin, tastefully seasoned with a pinch of pepper and garlic, encircled with bacon, broiled to your liking and served with a fresh vegetable, and a baked potatoe. Loaf roll & butter Tossed Green Salad $9.50

In order to best savour the delicate flavour, our chef recommends that this entrée be ordered rare or medium rare.

Seafood Newburg

Tender Bay scallops, succulent chunks of baby lobster tail, Chesapeake Bay backfin crabmeat and Gulf shrimp in a creamy wine sauce (or Crafa special) topped with bread crumbs and served piping hot, en casserole.

Loaf roll and butter
Tossed Green salad

Shrimp Florentine

Whole shrimp in a Marsala wine and Gruyere cheese sauce served on a bed of spinach and garnished with Giardiniera. Loaf roll and butter Tossed Green Salad

Crab Imperial

Fresh backfin (lump) crabmeat in a creamy Imperial sauce, en casserole. Loaf roll and butter Tossed Green Salad $7.25

Trout New Orleans

Fresh rainbow trout boned and stuffed with Backfin Crabmeat and baked to a golden brown. Loaf roll and butter, Tossed Green Salad $8.95

Surf & Turf

A steamed one 1/4 pound live Maine Lobster... with a 8 oz. center cut Filet Mignon. Served with drawn butter and the vegetable of the day. Loaf roll & butter, Tossed Green Salad $13.95

Beef Bordelaise

A gourmets delight! Tender strips of beef, sautéed with fresh mushrooms, onions, green peppers, tomatoes, spices and Burgandy Wine. Served on a bed of polished rice Loaf roll and butter Tossed Green Salad

CASHIERS! TELLERS! CLERKS!

★

Do your employers furnish you with the latest edition of the City Directory?

★

You need it at your elbow at all times, to protect your company from forgers and bad-check artists. A few questions, checked against City Directory information, will trip them at once. Intelligent use of the City Directory for this purpose has saved thousands of dollars and helped make some cities "too sharp" for bad-check "operators."

PLEASE! Do Not Lend Your CITY DIRECTORY

IT COSTS YOU MONEY—Every Time it Is Loaned

The practice of lending your City Directory, in a great measure, is responsible for the increasing cost of Directory Service.

The reason is:—

There is a definite cost involved in the making of the DIRECTORY of Your City.

THIS COST MUST BE ABSORBED BY THE SUBSCRIBERS—BE THEY ONE—OR BE THEY 1000.

If there were but ONE SUBSCRIBER to the CITY DIRECTORY—THE ONE SUBSCRIBER would of necessity have to absorb THE WHOLE COST.

If there were 100 SUBSCRIBERS—each one would have to absorb 1/100th PART OF THE WHOLE COST.

If there were 1000 SUBSCRIBERS—each one would have to absorb 1/1000th PART OF THE WHOLE COST.

From which it is obvious that the GREATER the number of subscribers —the LESSER the cost to each.

And

It is also obvious that the LESSER the number of subscribers—the GREATER the cost to each.

Every time you loan your City Directory the LESS NECESSITY THERE IS FOR THE BORROWER TO SUBSCRIBE FOR THE SERVICE.

MORE BORROWERS result in FEWER SUBSCRIBERS which means INCREASED COST.

THE PUBLISHERS

A STATEMENT OF ADVERTISING PRINCIPLES

1. Good Advertising ~ aims to inform the consumer and help him to buy more intelligently.

2. Good Advertising ~ tells the truth, avoiding misstatement of facts as well as possible deception through implication or omission. It makes no claims which cannot be met in full and without further qualification. It uses only testimonials of competent witnesses.

3. Good Advertising ~ conforms to the generally accepted standards of good taste. It seeks public acceptance on the basis of the merits of the product or service advertised rather than by the disparagement of competing goods. It tries to avoid practices that are offensive or annoying.

4. Good Advertising ~ recognizes both its economic responsibility to help reduce distribution costs and its social responsibility in serving the public interest.

Advertising Federation of America

(Your Directory publishers fully subscribe to the principles set forth in this statement)
